1.0 Purpose and Intent

This request for proposals (RFP) is issued by the Government of Puerto Rico (Government) through the Central Recovery and Reconstruction Office of Puerto Rico (CRRO), a division within the Puerto Rico Public-Private Partnerships Authority (Authority). The purpose of this RFP is to solicit proposals from interested qualified firms which can provide Disaster Recovery Energy Mission Optimization and Program Management Services in connection to the aftermath of Hurricanes Irma and Maria.

The intent of this RFP is to award one contract for disaster recovery energy mission optimization and program management services to assist in Puerto Rico's recovery efforts and execution of needed projects in accordance with Federal and Government requirement in connection with appropriated disaster assistance funding related to DR-4336 and DR-4339. The CRRO and the Authority reserve the right to grant more than one contract and/or select more than one qualified proponent or bidder. Award of contract will be to those qualified firms whose proposal, conforming to this RFP, is most advantageous to the Government, the price and other factors will also be considered therein. Section 2.0 of this RFP has a detailed description of the scope of services.

It is the Government's intent to ensure that all work performed, pursuant to this RFP, is eligible for United States Department of Housing and Urban Development (HUD) and United States Federal Emergency Management Agency (FEMA) Public Assistance grant funding and performed in accordance with HUD, FEMA and other applicable Federal and State regulations, policies and guidance including, but not limited to, Davis-Bacon Act (40 U.S.C. 276a to 276a-7) and Clean Air Act (42 U.S.C. 1857 (h)). Qualified firms shall possess all required Federal and Government licensing. This in particular may include, without limitation, the programs known as FEMA Public Assistance, FEMA Hazard Mitigation Grant Program, HUD Community Development Block Grant Program, HUD Community Development Block Grant Program—Disaster Relief, HHS Social Services Block Grant Program, DOT, FHA, FTA, FAA Grant Programs, Department of the Interior Grant Programs, USDA Emergency Watershed Protection Program, USDA Emergency Forest Restoration Program, among others.

1.1 Background

During the month of September 2017, Hurricanes Irma and Maria delivered devastating blows to Puerto Rico, resulting in the largest and most complex disaster response and recovery effort in U.S. history. Hurricane Irma (Irma) skirted the northern coast of the Island from September 6-7, 2017 as a Category 5 storm, causing significant flooding, regional power and water outages, and other impacts to the Island's infrastructure. Exactly thirteen days later and before Irma's response operations had even concluded, Hurricane Maria (Maria) slammed into Puerto Rico on September 20, making a direct strike as a strong Category 4 storm and causing widespread devastation and destruction the likes of which Puerto Rico has never seen.

Maria represented a “worst case scenario” for Puerto Rico, tracking east-to-west across the Island and leaving a path of destruction. Within a matter of hours, 100% of Puerto Rico’s population, economy, critical infrastructure, social service network, healthcare system, and even the Government became casualties of the storm. As such, Maria caused massive infrastructure and property damage and loss of life.

On September 5th and 17th, 2017, Governor Ricardo A. Rossello requested separate Federal declarations of emergency and disaster for Puerto Rico related to the impacts of Irma and Maria. Subsequently, President Donald J. Trump (President) approved Puerto Rico’s Emergency Declaration (EM-3384) and Major Disaster Declaration (DR-4336) related to the impact of Irma, and Emergency Declaration (EM-3391) and Major Disaster Declaration (DR-4339) associated to the impact of Maria.

The President’s action qualifies Puerto Rico for Federal disaster assistance funds. Disaster assistance can include but is not limited to: HUD Community Development Block Grant Funding-Disaster Relief (CBDG-DR) and FEMA Public Assistance, Individual Assistance and Hazard Mitigation Grant Program funds, as well as other federal disaster assistance programs. The Puerto Rico’s Office of Emergency and Disaster Management (PROEDM), in cooperation with other Government Entities, executed the initial response efforts and coordination immediately following Irma and Maria.

On October 26, 2017, the President signed into law H.R. 2266, the “Additional Supplemental Appropriations for Disaster Relief Requirements Act 2017,” which provides \$36.5 billion in FY2018 emergency supplemental appropriations to FEMA, the Department of Agriculture (USDA), and the Department of the Interior, which includes certain relief and recovery funds for Puerto Rico in connection to hurricanes Irma and Maria.

On November 13, 2017, Governor Rossello’s Administration submitted to the President and U.S. Congress its “Build Back Better Puerto Rico” report, which calls for Congress to provide \$30 billion within the FEMA Disaster Relief Fund to recover critical infrastructure; \$46 billion to restore housing and economic viability through the Community Development Block Grant - Disaster Recovery (CDBG-DR) program; and \$17.9 billion in other Federal grant programs for long term recovery with the intent to reconstruct a stronger, more resilient Puerto Rico.

In addition, Puerto Rico has requested Congressional authorization of 100% funding for Stafford Act Programs. According to the Build Back Better Puerto Rico report “[w]ith the required use of the Section 428 of the Stafford Act for Permanent Work under FEMA, the overall Public Assistance funding will be capped to the mutually agreed upon estimates. Furthermore, Puerto Rico has also indicated that additional funding will be needed through the Community Disaster Loan Program (CDL) to overcome the liquidity needs of the Government of Puerto Rico”.

As the Government continues to move into the recovery phase in the aftermath of the storms, it seeks specialized services designed to support all facets of intermediate and long-term recovery efforts. These efforts will be the responsibility of the newly created CRRO, a division within the Authority.

1.2 Central Recovery and Reconstruction Office

On October 23, 2017, Governor Rossello signed Executive Order No. 2017-065, as amended by Executive Order 2017-069 (Executive Order), which establishes the CRRO as a division within the Authority, with all the necessary authority, powers and capability to: (a) identify, procure and administer all state, federal and/or private resources for recovery; (b) direct and coordinate efforts and activities of the Government of Puerto Rico related to the recovery; (c) fund and execute recovery and related infrastructure projects; and (d) advise the Governor and provide technical assistance to other entities, across the Government, related to recovery efforts, as required. The CRRO will provide the centralized oversight and financial controls that the Government of Puerto Rico and the U.S. taxpayers expect for the recovery effort. It will also ensure that the Government implements reconstruction efforts with efficiency and transparency, and capitalize on opportunities to build back in a manner that makes Puerto Rico better, smarter, stronger, and more resilient.

The Executive Order established the CRRO as a division within the Authority. The Authority was created by the Public-Private Partnerships Act, Act No. 29-2009, as amended (Act), which states that the public policy of the Government is to favor and to promote the establishment of public-private partnerships (PPPs or P3s) for the creation of certain Priority Projects (as such term is defined in the Act) and among other things, to further the development and maintenance of infrastructure facilities, share with the private sector the risk involved in the development, operation or maintenance of such projects, improve the services rendered and the functions of the Government, encourage job creation and promote Puerto Rico's socio-economic development and competitiveness. The Authority is also empowered to receive and administer funds from the Federal government, and finance the construction, rehabilitation, reparation, preservation and replacement of infrastructure.

The Act provides that the PPP public policy shall maintain such controls as are necessary to protect the public interest and to comply with certain transparency requirements. The Authority was created pursuant to the Act as a public corporation of the Government. The Authority has a proven governance structure with a five-member Board of Directors and competent personnel with expertise in infrastructure procurement.

1.3 Contract Term

The term of the contract that will be awarded at the end of this RFP process will commence upon CRRO's execution of the contract and will extend for three consecutive Puerto Rico fiscal years. Puerto Rico fiscal years run from July 1st of each year to June 30th of next year. Upon the

acceptance of the final release, the contract will be deemed satisfied. The CRRO and the Authority reserve the right to re-bid the contract after the completion of the three-year period or under several contract breach circumstances from the Selected Proponent.

All proposals meeting the proposal submission requirements will be evaluated.

Each proposal meeting all submission requirements will be independently evaluated by the Evaluation Committee, which will assign a score for each evaluation criterion listed below in this section up to the maximum points.

The CRRO may request further clarification to assist the Evaluation Committee in gaining additional understanding of proposal. A response to a clarification request must be to clarify or explain portions of the already submitted proposal and may not contain new information not included in the original proposal.

Complete proposals will be preliminarily scored based upon the criteria listed below.

Experience and Capacity (30 points)

Respondents must demonstrate experience and success in applying federal disaster funding to public utility and energy recovery and in providing project management solutions to the planning, design and construction of resilient projects across a spectrum of funding sources. Particular consideration will be given to respondents who have knowledge and expertise in CDBG- DR, Section 428, knowledge and expertise in housing, energy, construction industry and a track record of energy mission optimization and program management services. Previous experience with hurricane relief funded programs, will be factored into experience. Respondents must have experience related to federally funded disaster recovery programs and significant infrastructure projects. Respondents that demonstrate they have the staff available to begin immediately will be scored higher than those who need more time, or whose responses are vague.

It is the responsibility of the Authority and the CRRO to encourage respondents to engage Local Parties as Team Members and Key Individuals (particularly with respect to professional designers, auditing firms, IT professional, etc.) to the greatest extent possible. Despite that the scope of services pertains to numerous Federal regulations, the services will be rendered for the benefits of Puerto Rico, which requires clear understanding of local regulations, policy frameworks and infrastructure and fiscal challenges of the Island. Local Parties can significantly complement the services of U.S. based firms and enhance the effectiveness of respondents in the implementation and deployment of the required services.

3.1 Finalist Interview

The CRRO reserves the right, at its sole discretion, to invite qualified respondents to a finalist interview with the Evaluation Committee.
